

## FLIGHT FOLDER SYSTEM – OPERATING PROCEDURES (USER'S GUIDE)

**Step 1.** Select Username from the dropdown list. Enter Password then click LOGIN button to proceed to the next page. Make sure the keyboard's CAPS LOCK is ON, passwords are case sensitive.

**Step 2.** Enter Flight Number or Company name. Select Origin- ABU DHABI (default). Select airport Destination and enter flight Departure Time in UTC (e.g. 01:00 for 0100UTC, 12:00 for 1200UTC).

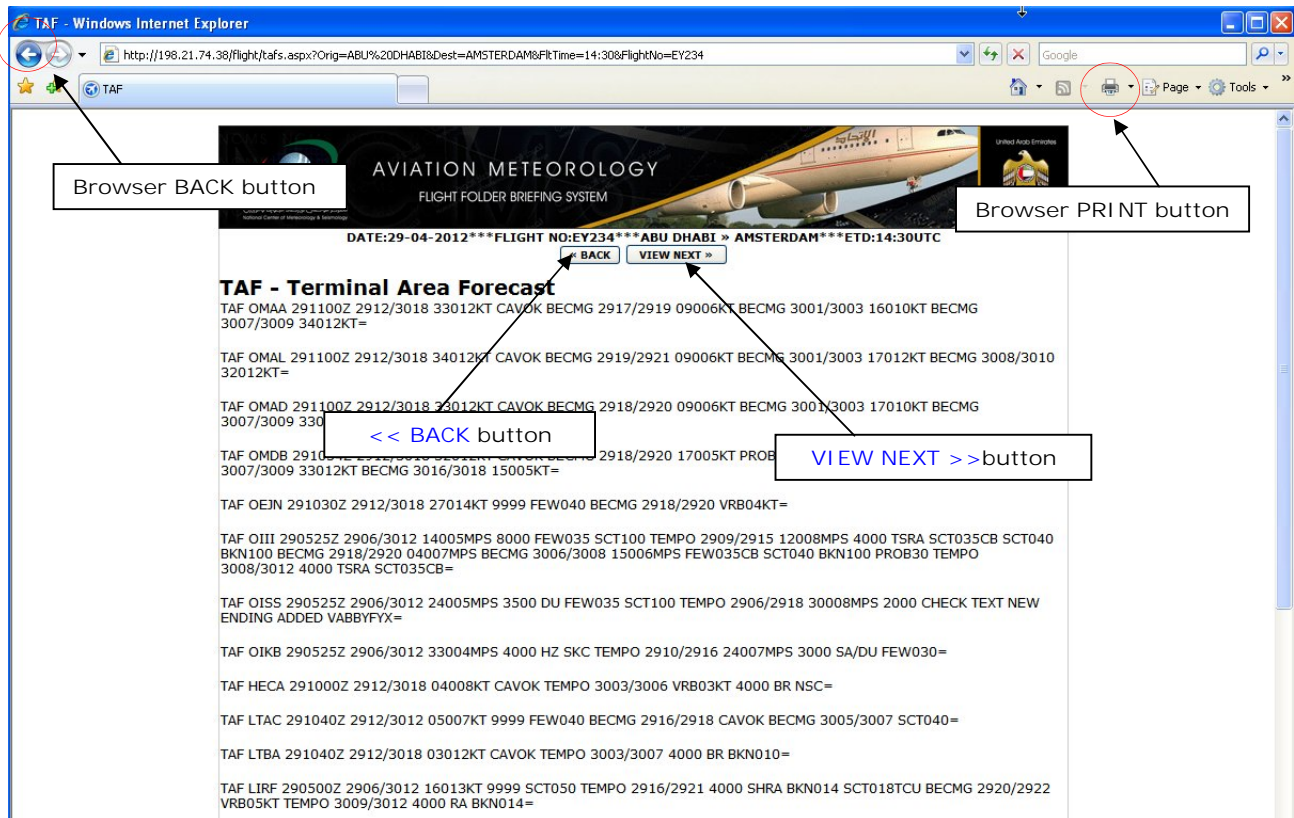

Step 3. There are two options to view flight data in the website. VIEW DATA PER PAGE and VIEW ALL DATA IN A PAGE. The default selection is VIEW DATA PER PAGE (Option #1), but if you want to view all flight data without pressing the next button, use VIEW ALL DATA IN A PAGE (Option #2).

USING OPTION #1:

Selecting VIEW DATA PER PAGE button will display individual page data, just click the **VIEW NEXT >>** button to continue viewing the rest of the flight data. To move back to the previous page, just click the browser's BACK button or the **<< BACK** button on the page.

**NOTE:** Clicking the browser PRINT button will print only the current data or image on the page.

USING OPTION #2:

Selecting VIEW ALL DATA IN A PAGE button will display all data in single page format, this includes all the messages, tables and charts needed for the flight.

Just use the browser's SCROLLBARS to navigate through the rest of the page. To move back to the previous page, click the browser's BACK button or the <<BACK button on the page.

**NOTE:** Clicking the browser PRINT button will print all data and images on the page.

**Browser BACK button**
